
Dustcover, Coil-over Strut (Service-7)

This bellows-style dustcover fits Bilstein and MM monotube struts, and is small enough to fit completely inside a 2.5" coil-over spring. We recommend that dustcovers be used at all times to prolong strut life. Replaces standard Bilstein strut dustcover. Sold individually.

Read all instructions before beginning work. Following instructions in the proper sequence will ensure the best and easiest installation.

Supplemental Instructions

- Vehicles equipped with Maximum Motorsports MMCO-1 Front Coil-over Kits require modification to the dustcover.
- Refer to your Ford Service Manual for removal and installation of strut.

Non-Coil-Over Instructions

Slide the dustcover down over the strut. The top of the dustcover should be seated around the strut shoulder.

MM Coil-Over-Equipped Instructions

Using a power sander or grinding wheel, remove the lip of the dustcover until it rests completely below the strut shoulder.
